1. The first part of the report is a general statement of the purpose and scope of the study. It is followed by a brief review of the literature on the subject.

2. The second part of the report is a description of the methods used in the study. This includes a discussion of the subjects, the experimental design, and the data collection procedures.

3. The third part of the report is a presentation of the results of the study. This includes a discussion of the main findings and a comparison of the results with the previous literature.

4. The fourth part of the report is a discussion of the implications of the study. This includes a discussion of the theoretical and practical implications of the findings and a suggestion for further research.

5. The fifth part of the report is a conclusion. This is a brief summary of the main findings and a statement of the overall conclusions of the study.
